

```

        mListView321.setOnItemClickListener(
            new AdapterView.OnItemClickListener() {
                @Override
                public void onItemClick(AdapterView<?> parent,
                    View view, int position, long id) {
                        mSoundManager.playSoundEffect(
                            SoundManager.SOUND_CLICK);
                    }
            });
    }

    @Override
    public void onClick(View view) {
        mSoundManager.playSoundEffect(
            SoundManager.SOUND_CLICK);
        mDialog.dismiss();
    }
}

```
